

# NYAC PRACTICE EQUIPMENT

Starting with the Summer '09 Season, and continuing through the 2009-2010 winter season, each NYAC swimmer will be required to purchase practice equipment. These items are essential for stroke development and improvement. The items required are dependent upon the swimmer's practice group. See chart below. While a swimmer is welcome to purchase additional equipment beyond that required for his/her practice level, please understand the extra item(s) will NOT be used in NYAC practice. (Ex: An AG-C swimmer can purchase a snorkel, but will not practice with it) Also, one important component to this program is the swimmer's ability to exchange the fins when they become too small. In order to take advantage of the exchange program, the fins must be in good shape. While paddles can also be exchanged when outgrown, snorkels are only one size and WILL NOT be exchanged!!!!

Initial sizing will be done during the first weeks of Winter practice.

Also available for purchase is an optional NYAC mesh bag that is perfect for carrying the equipment to every practice!

Dana Trgovic will be the Parent Program Coordinator. Orders and payment should be returned to her during Registration. Exchanges can be handled through any Coach or Mrs. Trgovic. Payment can be made by submitting a check made payable to WSY or requesting a deduction from your escrow account.

Swimmer's Name: \_\_\_\_\_

Practice Group: \_\_\_\_\_

Additional Items: \_\_\_\_\_
